## How to unlock alcatel fierce 4 password

Learn how to use the Mobile Device Unlock code of the Alcatel ONETOUCH Fierce 4. SIM unlock phone Determine if devices are eligible to be unlocked. Contact Customer Care to request the Mobile Device Unlock code for your phone. From the Application list, tap Device Unlock. Note: You may need to tap the T-Mobile group then Device Unlock. Tap Continue. Wait while the device connects to the server. Choose the desired device unlock type: Permanent Unlock: Permanently unlocks the device. Temporary Unlock: Temporarily unlocks device for 30 days. Note: Temporary unlocks must be performed with a mobile data connection. Wi-Fi will not work. Wait while the device requests the unlock. If successful, restart the device to apply the settings. alcatel Fierce 4 If your smartphone alcatel Fierce 4 it works very slow, it hangs, you want to bypass screen lock, or you have a full memory, and you want to erase everything, or you want to sell it or give it away and you want nobody to be able to access your files and passwords you can do a factory reset so that it returns to be like the first day. In the following steps we explain how to format the alcatel Fierce 4 to erase all your information and make it totally clean as it came out of the store. Before doing a factory reset we recommend you delete all the accounts on the device, specifically it is useful to unlink the Google account if you are going to sell, donate or give away your Fierce 4. In this way we will avoid problems for the new user since some More modern devices include a functionality called FRP or Factory Reset Protection that requests the same Google account with which the alcatel Fierce 4 was initially configured when factory restoring a device. You must bear in mind that a reset or return to the factory state in a mobile/cell phone deletes all its content, so you must make a backup of your data before doing it if you do not want to lose everything.In case you do not want to erase the data from the device, you can try to restart the alcatel Fierce 4. There are two ways to do a reset on an alcatel Fierce 4 one through the mobile options and another more complete from the recovery mode. If you want to make a reset using the device options to return to the factory state an alcatel Fierce 4 you have to follow these simple steps: Estimated time: 5 minutes. 1- First step: Access the settings menu of your device alcatel Fierce 4, this is the cogwheel icon. 2- Second step: Scroll down the alcatel Fierce 4 settings to the bottom where you will see the section called "System", click to continue. 3- Third step: If you see a section called "Advanced" click to display the advanced options of the alcatel Fierce 4. 4- Fourth step: Click on "Reset options" from this section it will allow us to restore network options, applications or reset the alcatel Fierce 4 completely. 5- Fifth step: Click on the last option called "Erase all data (factory reset)" or simply "Factory data reset". 6- Sixth step: A first confirmation message will appear reminding you that all your data will be deleted from this device, the data you have uploaded to Google, Facebook, Twitter, Instagram or backup copies that you have in the cloud, such as Google Drive, Dropbox or One Drive, will not be deleted. Press "Reset phone". 7- Seventh step: A second confirmation message will appear indicating that all information stored on the alcatel Fierce 4 and all downloaded applications will be erased and reminding that this action cannot be undone. If you agree, click on "Erase Everything". 8- Eighth step: If necessary, draw the screen unlock pattern or enter the screen unlock password or PIN to continue. 9- Ninth step: Your device Fierce 4 from alcatel it will restart and take several minutes to start while restoring the device to its factory state and optimizing the applications pre-installed in the operative system Android 6.0 (Marshmallow). Users rating on reset an alcatel Fierce 4 5.33 / 10 (15 votes) Before you find out if your ALCATEL Fierce 4 is locked, you need to check if your device cannot be unlocked by using popular screen lock methods. Typically, for added security, your phone may have standard screen lock methods such as: Pattern - try to draw a simple pattern with your finger PIN - input 4 or more numbers Password - enter 4 or more signs.
